Celebrating Australian
Owned Businesses

Who Are We?

Australian Owned is a recognised licence provider and business promoter with one goal: to get recognition for Aussie-owned businesses.

We know that there has always been a preference by the Australian public to support locally owned businesses however there hasn't always been a clear cut way of identifying them. For this reason, the licensee certification was introduced as a way to communicate Australian authenticity to consumers and businesses alike.

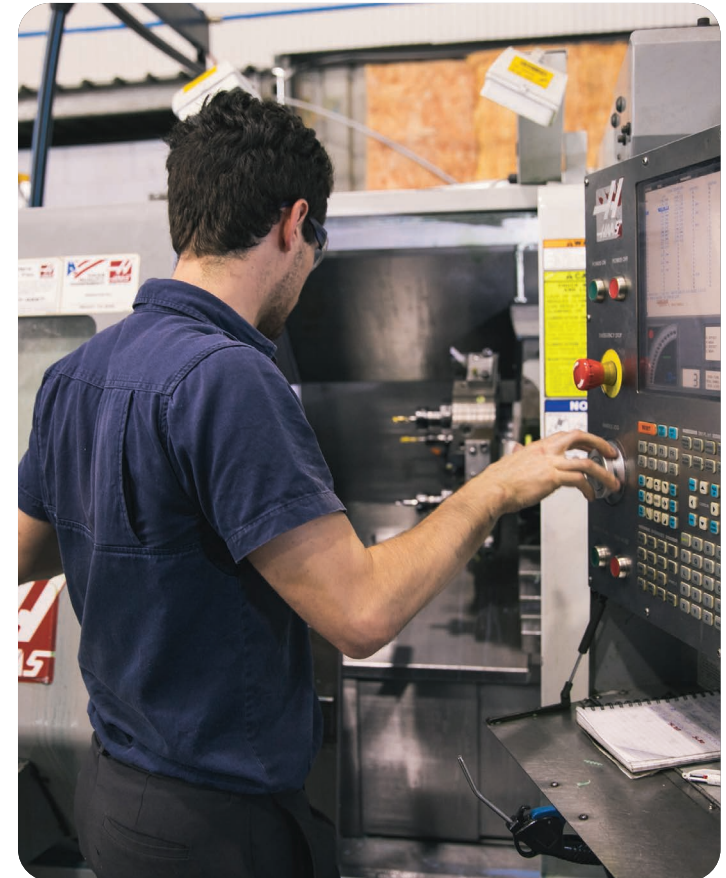

We want our initiative to not only help bolster the economy during these challenging times, but bring about the change that is needed to strengthen local communities with jobs and investment, and contribute to long term prosperity of the country.

What We Do?

Through the growth of our community and certification, we are able to:

- Enable consumers to seek out and identify products and services from our online directory of certified AO businesses
- Provide an online platform for businesses to source goods, build working relationships, and network with an entire community of Australian Owned suppliers and vendors
- Give customers the confidence that they are making a difference with their purchasing decisions by investing back into the country

What Our Businesses Are Saying

“When there are 100’s of options and we are the only one that has this logo, it gives us a huge advantage over our competitors as they make their buying decisions.”

Sam Simmons, AO Licence #00557 The Good Rub

“AO is about communicating far and wide that our business is Australian and that’s why it’s our choice.”

Mark Fazio, AO Licence #01355, MATE Communications

“We are proudly Australian Owned.”

Ross Hopper, AO Licence #02053 Maleny Dairies
